D E C L A R A T I O N

I, Martin Kugler, of Am Kloster 47, D-42799 Leichlingen, Germany, a citizen of Germany declare:

That I am a biologist having studied at the University of Tübingen;

that I received the degree of doctor rer. nat. at the University of Tübingen in the year of 1986;

that in 1987 I entered the employ of Bayer Aktiengesellschaft, Leverkusen, Germany, where I am still working in the department of research of technical materials protecting agents at Krefeld, Germany;

that I have 10 years' experience in the field of testing and evaluation of chemical compounds for their action on microbes attacking technical materials;

that I am one of the applicants in the above-identified application;

that the following tests have been carried out under my supervision and direction:

Inhibition test on giant colonies of Basidiomycetes

Mycelium sections were removed from colonies of *Gloeophyllum trabeum*, *Coniophora puteana*, *Poria placenta*, and *Lentinus tigrinus*, and incubated on an agar medium containing malt extract peptone at 26°C. The inhibition of hyphal growth on active-compound-containing media was compared with the longitudinal growth on media without an addition of active compound and rated as per cent inhibition.

Results

Inhibition as per cent inhibition at an active compound concentration of 1 ppm			
	Prochloraz	Fluotrimazole	Cyproconazole
<i>Gloeophyllum</i> <i>trabeum</i>	59	66	100
<i>Coniophora</i> <i>puteana</i>	28	87	100
<i>Poria</i> <i>placenta</i>	13	28	100
<i>Lentinus</i> <i>tigrinus</i>	33	13	100

The undersigned declarant declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
